## DETAILED ACTION

### *Allowable Subject Matter*

1. The following is an examiner's statement of reasons for allowance:

Applicant amended independent claim 8 by adding a limitation such as "the winding of the transformer are made of stacked plate-shaped conductor". None of the cited art overcomes the claimed limitation of the instant application because "the control circuit switches the plurality of switching elements in the plurality of switching power supply units at regular intervals *and regular time ratios*, the *windings of the transformer are made of stacked plate-shaped conductors*" (emphasis added). It is respectfully submitted that Ikeda does not disclose or suggest each and every limitation of the claimed *combination*. See applicant's remarks dated 23 November 2007 page 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
